

# MEDIA TEMPLE CASE STUDY

## Hidden Depth Needed Fast, Secure Hosting

### The Design World of Hidden Depth

Located in Dublin, Ireland, design agency Hidden Depth was launched in 2007 with one goal in mind: To create an agency that would, first and foremost, serve the end user. This focus on user experience and efficient design has brought Hidden Depth recognition both inside and beyond its native Ireland.

Because creating websites that have an engaging user experience requires more than rock-solid hosting, Hidden Depth needed a lightning-fast platform as well.

### The (mt) Solution

Hidden Depth chose Media Temple when they saw that the company was sponsoring their favorite web sites and creative events. They opted for a VPS hosting solution with SSDs, complete with daily backups and security malware scanning for additional security and essential rollbacks. Additionally, with an increasing number of their new clients requiring WordPress, Hidden Depth decided to host every client website on Media Temple's WordPress Personal Plan.

## h'idden depth

**Location:** Dublin, Ireland

**Website:** [hiddendepth.ie](http://hiddendepth.ie)

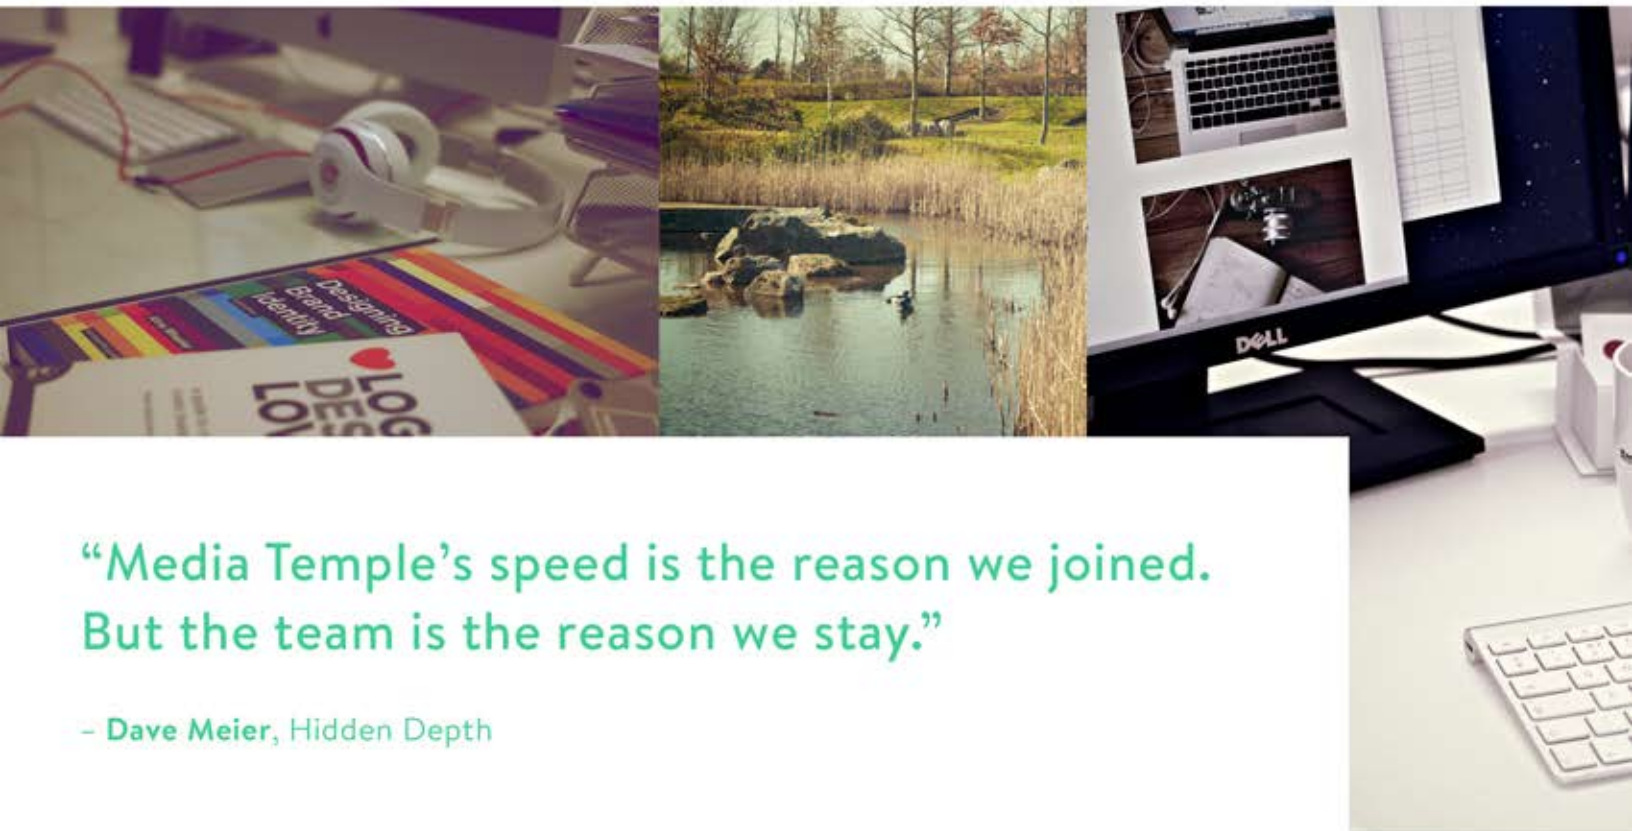

**(mt) customer since:** 2011

**(mt) plan:** VPS w/SSDs Level 1  
and WordPress Personal

## What Happened Next

The SSD-powered VPS and managed WordPress hosting solutions enabled a dramatic decrease in load time of all Hidden Depth's beautifully crafted and visually robust websites. Relying on Media Temple's award-winning customer support team to migrate clients and leveraging the daily backup feature to roll back from any emergency, the design agency's clients' websites are faster and more secure than ever.

“Media Temple’s speed is the reason we joined.  
But the team is the reason we stay.”

– Dave Meier, Hidden Depth
